### Experience

Mr. Savik has been actively engaged in the commercial real estate economics, appraisal/valuation, and consulting industry since 2009. He currently serves as a Director with Cushman & Wakefield's Valuation & Advisory group. He is also a member of the Dispute Analysis & Litigation Support Practice which is comprised of experts in damages theory, valuation, accounting, finance, economics, land use, real estate industry standards and practices, capital market issues, and financial and statistical modeling.

Valuation and consulting assignments have included a wide variety of properties, uses, and real property interests including fee simple, leased fee, and remainderman interests. Mr. Savik has prepared reports for government, corporate, and institutional clients for use in mortgage financing decisions, and matters involving property tax appeals, environmental impairment issues, condemnation, mediation, matrimonial disputes, and other forms of litigation.

### Sample of Property Types

- Retail (shopping centers, regional malls, drug stores, big-box, fast-food restaurants, and automobile dealerships)
- Office (corporate headquarters and multi- and single-tenanted buildings)
- Industrial (diesel truck service and repair, truck terminals, warehousing, self-storage, and manufacturing facilities)

- Residential (single-family, manufactured homes, and condominiums)
- Development land (residential, commercial, mix-use, and oceanfront)
- Specialty (conservation easements, horse stables, and military radar maintenance facility)

### **Specialized Experience**

- Eminent Domain (partial and full acquisitions for both property owners and condemners)
- Property tax appeals (office buildings, regional malls, shopping centers, and vacant land)
- Construction defects and delays
- Corridor valuation
- Environmental impairment and damages
  - Determined the effect on the value of a subdivision in suburban Atlanta resulting from a pipeline rupture including petroleum contamination of ground and surface water.
  - Valuation (“as if unimpaired” and “as impaired”) of several properties in Western North Carolina due to volatile organic compound contamination that included Trichloroethene.
  - Developed case studies comparing the prices paid for contaminated properties to the prices paid for properties that were unimpaired by contamination.
  - Researched sales and provided statistical analysis due to the presence of Vanadium and Hexavalent Chromium in drinking water wells for use in potential environmental tort litigation in several North Carolina counties.

### **Education**

**Coastal Carolina University** Conway, South Carolina

Degree: Bachelor of Science, Business Administration, Finance

### **Professional Affiliations**

- Certified General Real Estate Appraiser
  - North Carolina (A7862)
  - New York (46-51119)
